

Inventory of Traceability System Vendors

Disclaimer: This list has been compiled for reference only and **does not reflect endorsement or approval by the BC Government**. Applicants are solely responsible for ensuring the appropriateness of any traceability system for their operation or project and are encouraged to seek advice from an industry professional if required to evaluate the most suitable option for your business.

If you are a product vendor and would like to be added to this list, please contact ca_bctraceability@pwc.com

Notes:

- Entries highlighted in green are products that have been previously adopted by recipients of Traceability Program funding.
- “Agrifood ERP” refers to enterprise resource planning (ERP) process management software that integrates multiple business applications, including a traceability system, and is targeted to agrifood businesses.
- “Traceability – agrifood” refers to traceability software with a focus on agriculture or agrifood business needs.
